Professional Summary

5+ years of experience in Software Testing (Manual & Automation) with strong expertise in Java, Selenium WebDriver, TestNG, Jenkins, REST Assured, and Postman. Skilled in Hybrid & POM frameworks, API automation with OAuth 2.0, and CI/CD integration. Proficient in Smoke, Sanity, Regression, Functional, E2E Testing, and API validations using JSON/XML Path. Strong knowledge of SDLC, STLC, Defect Life Cycle, and Agile Scrum methodology. Hands-on with MySQL, Git/GitHub, and Extent Reports for rich test reporting.

Technical Skills

Automation Tools: Selenium WebDriver, REST Assured, TestNG

Defect Tracking: JIRA

Other Tools: Eclipse, Maven, Jenkins, Postman

Version Control: Git, GitHub

Languages: Core Java

Database: MySQL

Work Experience

SPARKVIZ Technologies Pvt. Ltd. — QA Automation Engineer

Sep 2022 – Present

- Designed and executed UI and API automation using Java, Selenium, TestNG, and Rest Assured.
- Built POM-based framework with reusable components for scalability.
- Automated REST APIs including POST, GET, PUT, DELETE with schema validation and token-based auth.
- Implemented Data-Driven Testing using TestNG DataProvider with Excel/JSON inputs.
- Configured Jenkins pipelines for CI/CD automation with daily and on-commit execution.
- Generated detailed Extent Reports with screenshots for failed test cases.

BRILLQUEST Technologies — QA Engineer

Aug 2019 – Sep 2022

- Performed manual & automation testing for multiple web-based projects.
- Developed and maintained automation scripts using Selenium and Java.
- Collaborated with developers to resolve defects and optimize testing workflows.

Key Projects

Loan Management System (Jul 2024 – Present)

Client: Global Financial Service

- Automated loan application, EMI calculation, and approval workflows using Selenium & TestNG.
- Designed dynamic locators and reusable functions for test scripts.
- Integrated database validations via JDBC.
- Configured Jenkins for automated execution and generated Extent Reports.

ClaimsConnect – Insurance Claims API Automation (Feb 2024 – Jul 2024)

Client: SecureLife Insurance Pvt. Ltd.

- Automated claims workflow APIs (create, update, delete, history retrieval) using Rest Assured.
- Performed request/response validation, schema checks, and token expiry simulation.
- Created data-driven API tests with JSON payloads.

ShopSphere – E-commerce Automation (Sep 2022 – Jan 2024)

Client: NovaRetail Ltd. (UK)

- Automated core e-commerce flows: login, search, cart, checkout, order history.
- Designed POM-based Selenium framework with parallel execution.
- Integrated automation suite with Jenkins for scheduled runs.

Michelin B2C Experience (Sep 2020 – Sep 2022)

Client: Michelin

- Developed automation scripts for cross-browser and responsive testing.
- Automated UI workflows for product browsing, checkout, and dealer service search.

Bajaj Allianz – Insurance Application (Aug 2019 – Sep 2020)

- Conducted manual functional, regression, and UAT testing for policy and claims workflows.

Education

B.Tech in Information Technology – PBR Visvodaya Institute of Technology & Science, Kavali

Declaration

I hereby declare that the information provided above is true to the best of my knowledge.
